Introduction (Partial Chapter)

The Get Rich Trading E-Currency Report

Thanks for taking time out of your busy day to learn more about this **red hot** business. I am extremely excited to share with you what this is all about.

You will soon be on your way to **Discovering the Exact Same Strategies I Use to Make an Absolute Killing Trading E-Currency!** And you'll find out how to put that knowledge to use, **Pulling in Profits.**

The New World Currency (E-Currency)

The use of e-currency is rapidly spreading throughout the world. Quicker than you might think, currency as we know it, is changing. Necessity for efficiency is transforming the flow of **cash into a digital form.**

Everyday, more and more people are making purchases online. These purchases are being facilitated by companies like Paypal, E-Bullion, E-Gold and Net Pay. Even Google is considering launching their own E-Currency. The digital age is definitely upon us, and with the new forms of commerce, comes **new forms of opportunity.**

With the advent of these E-currency companies, trade between different countries is suddenly becoming easier and more profitable. New products and services are quickly filling the need for the flow of money.

To Get the Full Version of This E-book Visit: www.DXinGold.com

The one constant still remaining is the ever present, currency exchange rates. To avoid these fluctuations and exchange fees, companies have facilitated their transactions with the **global currency of gold**.

Some online e-currency companies now tout that their holdings are 100% backed by gold. This no longer is true for any of the national currencies now in existence. The United States for example, has not had 100% of their currency backed by gold, since the end of the gold standard in 1914. The value of the U.S dollar continues to decline, as the **value of gold rises steadily**.

Due to national inflation, the cash you hold in your hand will continue to lose value. Unfortunately, there is not nearly enough gold to cover all of the paper money holdings. That money you hold in your hand is basically a loan from the government. The tenet of many governments, when they fall on hard times, is to print more money. This fact has led to the desire for more worldwide corporations to embrace the idea of a **global currency**.

To accommodate the demand to trade goods and services between countries, many companies have been created. The increased need for exchanging has created **lucrative opportunities** within the e-currency exchanging markets. A global currency exchange is evolving that knows no boundaries or national borders.

While gold remains the standard for many worldwide transactions, there still exists a need to transfer funds from, existing national currency, into gold and vice versa. There also exists the need for different e-currencies to be exchanged among themselves. This need has created a void that has enabled **average people to cash in on**.

To Get the Full Version of This E-book Visit: www.DXinGold.com

Trading e-currency has filled the demand for these transactions to be completed efficiently, while enabling certain people in the know, a **lucrative business opportunity**.

Those people who understand the system can leverage their funds to facilitate the transactions while **pocketing a sizable commission**.

What Do I Need To Start?

The requirements are a computer, an internet connection and \$25. You can invest as much as you like, that's just the starting point. And **you can work this from anywhere in the world**.

How Do I Get Paid?

When you start up your E-Currency Portfolio you will access a global network and **profit from the supply and demand of the system**.

To make a trade you select a symbol to purchase which is a global representation of an E-Currency from that part of the world. You then temporarily make your funds available to facilitate the trade of E-Currency.

Your E-currency transactions are completed very quickly, enabling you to transfer your funds in real time, avoiding the problem of charge backs, closed accounts, credit card interest and the fees of wire transfers

Your selections will **pay out dividends** which you can choose to reinvest or withdraw to your E-Currency Account.

To Get the Full Version of This E-book Visit: www.DXinGold.com

You can withdraw your dividends to an E-Currency, have it exchanged for a check mailed to you, or have it exchanged for cash with a debit card from practically any ATM in the world.

You will also benefit from the end of session gains within the system which are available every 24 hours for you to reinvest. These gains are distributed to every portfolio and are based on the activity within the system.

The Power of Compound Interest

Compound interest is paid on the original principal (your initial investment) and on the accumulated interest. This means that with compound interest you make money from the interest of the interest.

Compound interest is the key that catapults you to achieving your financial goals.

With the trade of E-Currency your account benefits from the power of compound interest, **accumulating in value at a very rapid pace.**

You might have heard the famous quote from Albert Einstein, “Compound Interest was the Greatest Mathematical Equation of all Time.”

The power of compound interest over time is simply staggering, and the higher the rate of return, the **faster your investment grows.**

To Get the Full Version of This E-book Visit: www.DXinGold.com

Why This Is So Powerful

When you receive Get Rich Trading E-Currency, you will have the necessary information to create a portfolio that immediately **goes to work for you.**

The most amazing thing you will discover while trading E-Currency is the power of a **residual money-making portfolio**, coupled with **compound interest**. You will be amazed by the dividends flooding into your account.

Can you imagine the income generating power of a system so efficient it adds money to your account every day that goes by? We're talking every single 24 hours, more money deposited into your account.

This money also compounds daily, making interest on the gains you made from the previous day. As you can guess, **the money really piles up quick.**

Do what the most successful internet gurus advise:

“Make Money While You Sleep”.

The Get Rich Trading E-Currency system shows you how to do just that. Visualize being able to go about your day while your E-Currency account continues to **put money right in your pocket**, day in and day out. And that is just one way you make money with this system

To Get the Full Version of This E-book Visit: www.DXinGold.com

Grow Your Portfolio, Grow Your Earnings

After you have profited from trading e-currency and have built up your portfolio, you are eligible to process larger trades and make even more money. The greatest part about this entire business is **you can work this in your spare time**. We are talking about 10 minutes to an hour a day. The choice is yours to work as little as you want.

You Can Run This Business

Once you have become familiar with the system, which you will do, because it is all laid out before you in easy to understand terms, **you will profit**.

The Greatest Opportunity You Will Find Online

When I first heard about this system from a friend of mine, can you guess what I did?

I didn't rush right out to join, if that's what you are thinking. I waited, and pondered, and waited some more. I actually saw the gains my friend was making, and were talking at that time a **hundred dollars a day**, now it is much more, and I couldn't believe it.

To Get the Full Version of This E-book Visit: www.DXinGold.com

I sat on the sidelines for two whole months. Practically every time I heard from that friend, all he could say was how crazy I am for not doing this business. He didn't even call it work because he said what he was doing took him no more than ten minutes a day.

In fact, he said he looked forward to it because **trading e-currency is fun**. I could only take so much of hearing this before I had to know how he was doing it.

Like Nothing You Have Seen Before

Once he told me all about it, I immediately began trading just like him. There is **no mystery** involved when **everything is laid out for you to understand**. I got started right away and the **money in my account skyrocketed**. My only regret was I didn't do it sooner. I would have doubled, if not tripled the money in my account if I wouldn't have waited.

I was Hooked on Trading E-Currency

You wouldn't believe my astonishment when I saw how the **money was growing**. It was actually happening to me! Not only was I making a great return, but this was fun. I now laugh when I tell people how I'm making money and see that look of skepticism. Just like me, before I started.

To Get the Full Version of This E-book Visit: www.DXinGold.com

Anybody Can Do This

I want you to be one of the success stories on the internet. Don't make the mistake I did and wait. I want you to be one of the people saying **"I found this really great opportunity that makes money for me while I sleep"**.

Join today and get in on the excitement and the profits. Visit the Get Rich Trading E-Currency homepage to start today!

To your success
Matt Sherborne

To Get the Full Version of This E-book Visit: www.DXinGold.com

The DXinOne Opportunity

DXinOne provides two unique opportunities to create residual income.

The first opportunity is to invest in DXinOne's trading program using Digital Ingot Destination Symbols. Digital Ingots, or Digots, are traded in every continent.

Digots represent locations of the world where activity has occurred with the DXSystem's services, businesses and customers. Your Digot selections once chosen, are stored in your DXPortfolio.

You choose the digots you wish to purchase. Once you purchase them, your funds are temporarily available to a Global Exchange Network, thereby facilitating the trade of Digots.

Each trading session consists of twenty-four hours and ends at 6 P.M Pacific Time. At the end of each session an End of Session Price Increase called DXDebit is allocated. The DXDebit price increase is issued to your DXPortfolio and can be withdrawn as profit to your E-Currency account.

The DXSystem is distinctive in that it offers its investors an average of 0.2% to 1% in their compounding DXPortfolio per day.

The second way to make money is to become a DXMerchant. As a DXMerchant, you essentially act as a broker for others purchasing and selling Digots. DXMerchants are paid by commission, which varies depending on the services completed.

To Get the Full Version of This E-book Visit: www.DXinGold.com

Due to the knowledge needed to successfully carry out the duties of a DXMerchant, DXinOne has implemented several prerequisites to becoming a merchant.

The prerequisites of becoming a DXMerchant is to be a member for 90 days, be 18 years of age and have a \$ 5000.00 TDV (Total Digot Value) which is basically the sum total of the amount invested in your DXPortfolio and a 3 1/2 Global Star Rating.

DXInONE reviews the need for new DXMerchants every 7 days and are allocated based on the supply and demand of the DXSystem.

Upon meeting the DXMerchant requirement and registering for your DXMerchant Console, you will become eligible to receive your own Merchant Console. This will enable you to earn bonuses on Xchanges from DXUsers and DXMerchants.

DXConsoles can be operated daily to earn Instant and Standard Claim Bonuses from processing transactions.

Information about the DXMerchant System is provided in detail, in **“Get Rich Trading E-Currency.”**

STARTING OUT WITH DXINONE (Partial Chapter)

SIMPLE STEPS TO HELP KEEP YOUR INFORMATION SECURE

When you access the Internet through the World Wide Web it is extremely important that you safe guard your personal information. It is necessary to operate your DXinOne business as securely as possible by maintaining a virus free environment.

You can read an article about keeping your computer safe. Visit <http://dxingold.com/security/cybercrime.htm> for more information.

REGISTERING FOR DXINONE

To register for a free account with DXinOne, visit:
<http://www.DXinOne.com>

The DXinONE navigational window, which is found right under the DXinOne logo, consists of three sub-menus. These are DXinOne, Personal and Business.

You can make sure your Internet browser is supported by the DXSystem by selecting DXinOne > General > Supported Browsers from the pull-down menu.

To register for your DXinOne account, point your mouse to the top left portion of the site. Hold the cursor over DXinOne on the top left portion and click on **Register User** from the pull-down menu.

To Get the Full Version of This E-book Visit: www.DXinGold.com

(see screenshot below)

In order to save yourself a lot of frustration, make sure you carefully enter your correct new DXUser information. This will be very difficult to change later.

The screenshot displays the DXInOne website interface. At the top right, it shows the date and time: "Fri Mar 3rd 2006 7:02:12 AM (UTC +11:00)" and a "Zone" dropdown. Below this, it indicates the "Current Connection: Standard" with a "Switch" button, and a "Welcome Guest" message with a "Sub Currency 'None'" and a "Change" button. The main navigation bar includes "DXInOne", "Personal", "Business", "Login", and "DXHelp". A dropdown menu is open under "DXInOne", listing options: "Register DXUser", "DXHelp Topics", "DXSecurity", "DXSupport", "General", and "General Tools". The "General" option is highlighted. The "Proudly Presents" section features a "General" logo and two main promotional tiles: "DXBusiness" and "DXGlobal Payment Console". Below this, a section titled "Your DXDaily Is Coming . . ." provides information about the DXDaily service. The "Services" section is divided into six columns, each representing a different service: "DXAccount", "DXClassifieds", "DXCredits", "DXTraveller", "DXTradeBiz", and "DXDirect". The "Promotional Advertisements" section contains six promotional boxes: "Attention Affiliates!", "Spread The Word" (adsXposed), "DXGlobal Company", "Holiday For Easter", "Good At Writing?", and "Know Your Travel?".

. : Step 1 - Person To Register : .

Please ensure the fields marked with ^ are correct as these details CANNOT be changed later.

Prefix: ^ 
First Name: ^  *VK Optional*
Middle Name: ^  *VK Optional*
Last Name: ^  *VK Optional*
Suffix: ^ 
Date Of Birth: ^   
Gender: ^ 

To Get the Full Version of This E-book Visit: www.DXinGold.com

You will have an option to use a **virtual keyboard** or the standard method. For your security, it is highly recommended that all information is entered using the virtual keyboard.

The virtual keyboard prevents others from logging your keystrokes and gaining confidential information. You will find the virtual keyboard to the right of where you fill in your name. Click on the blue **VK Optional** link to open it.

If the virtual keyboard does not open, try closing any unrelated programs or pop-up blockers. If for some reason you still do not see the virtual keyboard pop-up, check to see if it is minimized on your screen.

When using the virtual keyboard it is helpful to have the sound turned on, so you can hear your mouse clicks being entered.

To register, DXinOne first requires you to fill in your name and address.

To Get the Full Version of This E-book Visit: www.DXinGold.com

DXinOne does not accept a P.O. Box as a valid address. If you have trouble finding your city or country from the drop down menu, you can contact DXSupport.

It is very important that you select a password that is from 8 – 20 characters in length. It is also required that your password have a symbol in it.

After you have entered your phone number and selected a password, you will want to carefully choose a name for your DXAccount. Keep in mind that other DXUsers will be able to see the name you select. You should pick a name that is appropriate and professional.

When you get down to choosing your DXAccount details, you will notice your first account is automatically created in the global currency of DXGold. (DXG)

DXGold is the Main currency of the DXSystem and when funds are InXchanged (deposited) to DXInONE they are exchanged for DXGold.

Currently DXGold is pegged one for one to the U.S dollar and there are no exchange fees between the two. There are, however, exchange fees from DXGold to other currencies.

You have the option of creating a second account in any currency.

If you decide to open a second DXAccount, this author suggests selecting the base currency of the country you reside in.

To Get the Full Version of This E-book Visit: www.DXinGold.com

If you decide not to create a second DXAccount now, it can be done at a later time. However, if you choose to open a second DXAccount, choose **Yes** for the **Second DXAccount** option.

Although it is possible to open each account in a different currency, this author suggests choosing your native currency to avoid exchange fees. Please be advised that the currency you choose can NOT be changed.

To make viewing dates and times easier in the DXSystem, you can choose to select a *Default Time Zone* which will be loaded each time you login. This can be changed at any time by selecting the DXinOne Default Settings from the top of the page.

DXinOne provides a small referral credit for each new member who becomes part of their program. If you would like to put me as your referral you can enter: **127047** in the designated area.

After you have filled in the appropriate fields and read the terms of service and the privacy policy, enter the security code and click **I agree**.

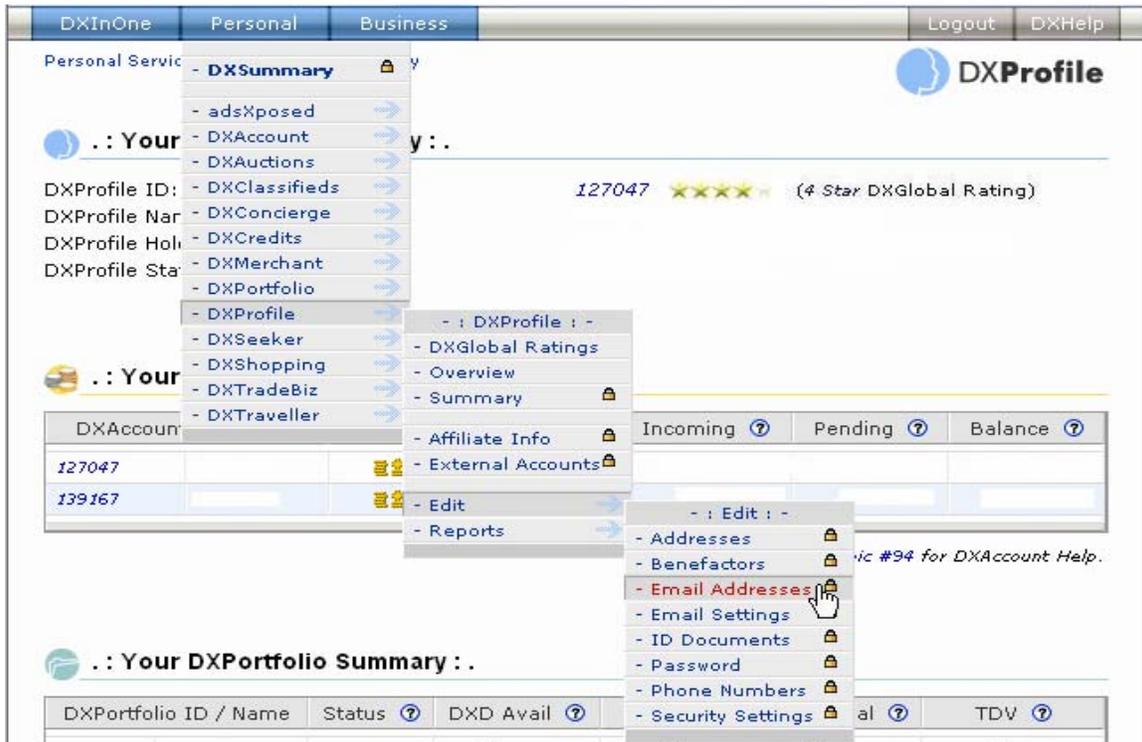

You will be sent an email from DXinOne with your personal DX identification number for logging in. Once you have received your first verification email you will then be instructed to log in to your DXAccount.

Once logged in, go to the drop down menu and select:

Personal → Profile → Edit → Email Addresses

To Get the Full Version of This E-book Visit: www.DXinGold.com

(see screenshot below)

There you must click **Verify** next to the email address listed. DXInOne will send you a second verification email with a code you will need to use to finish the email verification process.

You should now be registered with a DXInOne Profile and Account. You do not have to upload any more identification to begin investing.

However, to become a DXMerchant you will need to increase your Global Star Rating by following several steps that are discussed in “**Get Rich Trading E-Currency**”

To Get the Full Version of This E-book Visit: www.DXinGold.com

Recommended E-Services (Partial Chapter)

Funding your account in DXinOne

Now that you've joined and logged in, you will want to fund your account.

Here are some popular E-currency sites if you have not already joined one.

- [E-Gold](#)

- [E-Bullion](#)

- [Virtual Gold](#)

- [Net Pay](#)

Before you can InXchange your funds you must register an external e-service account with DXinOne.

REGISTERING E-CURRENCY SERVICE

To register your e-currency service, you must first log into DXinOne.

Once logged in, go to **Personal** → **DXProfile** → **External Accounts**.

To Get the Full Version of This E-book Visit: www.DXinGold.com

Select the account you have previously funded from the new page and press (next).

Then complete the add e-service process by entering your account id/number and account name/description at the bottom of the page.

When you have entered the information press(done) and you be ready to InXchange your funds to your DXinOne account.

InXchange (Partial Chapter)

To add funds you need to InXchange. The following guide is assuming you're going to use e-currency to fund your account. Bank Transfers will be more costly and slightly different.

Go to the InXchange screen by following the drop down link.

Personal - DXAccounts - InXchanges - E-Service

(see screenshot below)

Edit InXchange
InXchange Now!

To Get the Full Version of This E-book Visit: www.DXinGold.com

Make sure the details are correct. If they are, click the "InXchange Now!" button, otherwise click the Edit button to make changes.

You will then be taken to the e-service payment screen and payment details screen. Make the payment as directed, following each of the steps closely.

 : InXchange From E-Service : .

 **THANK YOU, YOUR INXCHANGE WILL BE COMPLETED SHORTLY.**

Thank you for your InXchange. Once we receive confirmation from the E-Service of the payment, we will credit the funds to your DXAccount and they will be made available for your use. You may need to login again to continue using your DXServices.

Upon completion, you should be taken back to your DXnOne Account. However if you are using a Remittance e-service there are several more steps that are detailed in "Get Rich Trading E-Currency."

Creating Your Portfolio (Partial Chapter)

The next step after joining is to create your DXPortfolio. The DXPortfolio is the key to long-term residual income and higher rankings in the DxInOne business.

One example is the requirement of having a TDV (Total Digot Value) of \$5000 to qualify to become a DXMerchant. A DxMerchant has the benefit of a console which greatly improves navigating and profiting through the DX system.

To Get the Full Version of This E-book Visit: www.DXinGold.com

To create your DXPortfolio, go to the Create / New screen: by following the drop down link

Personal - DXPortfolios - Create / New

(see screenshot below)

The screenshot displays the DXPortfolio website interface. At the top, there are navigation tabs for 'DXInOne', 'Personal', and 'Business', along with 'Logout' and 'DXHelp' links. The 'Personal' tab is active. A dropdown menu is open under the 'Personal Services' section, listing various options: DXSummary, DXAccount, DXAuctions, DXClassifieds, DXConcierge, DXCredits, DXMerchant, DXPortfolio, DXProfile, DXSeeker, DXShopping, DXTradeBiz, and DXTraveller. The 'DXPortfolio' option is highlighted, and a sub-menu is visible, listing: DXPortfolio, DigotScreen, Levels, Overview, Summary, Buy & Sell Digots, Credit Line, DXDebit, Reserve Balance, Activation Status, Balance Manager, Create / New, Detail Session, Detail By Symbol, Settings, and Statements. The 'Create / New' option is highlighted with a mouse cursor. The main content area shows a 'Create A New DXPortfolio' section with a 'Create New DXPortfolio' button. Below this, there are fields for 'DXProfile ID: (DXID)' and 'DXProfile Name:'. A 'DXPortfolio Creation Limits (Set 1)' section shows 'DXPortfolios (Registered): 1', 'DXPortfolios (Limit):', and 'DXPortfolios (Remaining):'. A 'DXPortfolio Activation Fees' section shows 'Activation Fee (Processing): 0.00% Free!' and 'Activation Fee (Currency Exchange): 0.00% Free!'. A 'DXPortfolio Currency' section shows 'DXPortfolio Currency:'. A 'Continue' button is at the bottom.

To Get the Full Version of This E-book Visit: www.DXinGold.com

Read through this page carefully.

You will need to choose your DXPortfolio currency from the drop down menu. The choices available to you will vary depending on the base currency of your main DXAccount.

Click the "Continue" button.

Choose a name for your new DXPortfolio.

Select your DXPortfolio level. You can see that the different levels require different starting amounts. Select a level that you have funds for and can afford.

Choose what DXAccount you want to link to this DXPortfolio. If you only have one DXAccount you wont need to make a choice.

Enter in any other fields as required. If you need help, click on the small question mark images, these contain small amounts of information to help you.

Click on the button to create your new DXPortfolio.

Buying Digots (Partial Chapter)

Buying digots is a necessary part of building your DxinOne business.

Go to the Buy Digots screen by following the drop down link.

Personal - DXPortfolios - Buy & Sell - Digot Screen

To Get the Full Version of This E-book Visit: www.DXinGold.com

This page allows you to choose which country you would like to buy digots from.

For example, if you wanted to buy digots from within China, you would select "Asia" from the Continent menu and the page would refresh with the Countries in Asia available from the Countries drop down menu.

You then would select China from the list.

You now have the option of choosing which currency Digots you would like to see listed.

You may leave the selection at "All Currencies" and view all the Digots available for the selected Country. Choosing an individual Country is good if you prefer to buy certain regions or countries.

If you want to see the entire Digot Screen, featuring ALL the digots, leave the country dropdown alone.

Try entering different settings on this page and see how it affects the View DigotScreen Page.

After making a selection, click the "View DigotScreen" to continue.

The Digot Screen is where you make your Digot selections and purchases. To use the list, enter in the amount of digots you want to purchase under the Qty column. Click anywhere on the page to refresh the "Total Buy" value.

Before picking any Digots it is advisable to research the different rates of each.

Get the complete Get Rich Trading E-Currency E-book to discover how to become fluent in choosing the right one, at the right time, to maximize your returns.

At the bottom of the screen there are "Preview" and "purchase" buttons.

After you have made your selections, click the preview button to refresh the balances. A message will tell you if you don't have enough funds to cover the order.

If you are happy with your choices, click the button to purchase your Digots.

.: Step 4 - Preview Totals :.

| Item | Value |
|--|-------------------------------------|
| Current Reserve Balance: | £80.0474 DXG |
| Current Credit Line: | £ |
| Total Digots: | 922 Digots in 1 Destination Symbols |
| Total Buy Price: | £80.0296 DXG |
| Total Premium: | £3.8724 DXG |
| Total Buyers Fee: ⓘ (Currently: 1.00%) | £0.8003 DXG |
| Payable From Reserve Balance: | £80.0296 DXG |
| Payable From Credit Line: | £4.6727 DXG |
| Remaining Reserve Balance: | £0.0178 DXG |
| Resulting Credit Line: | £ |
