

# H&H China2Go Talking Phrase Book, Edition version 3 for Windows Mobile (Pocket PC) Installation Guide

Before you start, please make sure you have the correct installation package for your device. If your device's operating system is Pocket PC 2002 or later, please use the ARM version. If your device is older, please visit the following web page to download the correct version:

<http://www.hnhsoft.com/dlarchive.htm>

To install H&H China2Go Talking Phrase Book, please follow the instructions below:

1. Download the setup package to your local desktop PC.

Download the installation package from

<http://www.hnhsoft.com/downloads.htm>

Find the product you want to download, click on the diskette icon, and save the file to your local desktop PC. If you do not have a program to open .zip file, please download it at <http://www.winzip.com>

2. Start ActiveSync

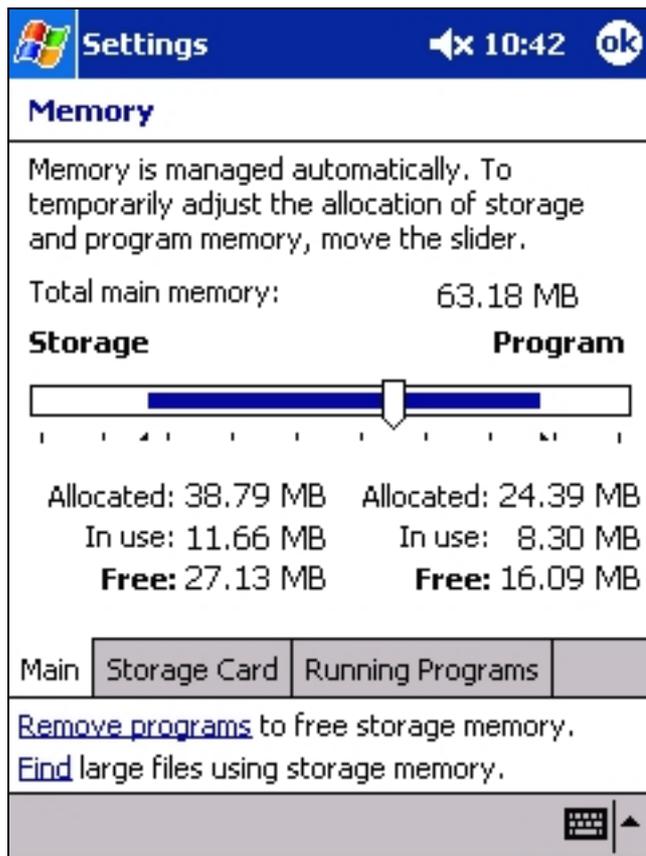

Connect your Pocket PC to your desktop PC via cable or cradle and let Active Sync start. Wait until the Active Sync green icon goes into steady state.

3. Remove previous version of China2Go

If you have a copy of China2Go installed, please un-install it. On your Pocket PC, go to Start → Settings → System → Remove programs, and remove the program.

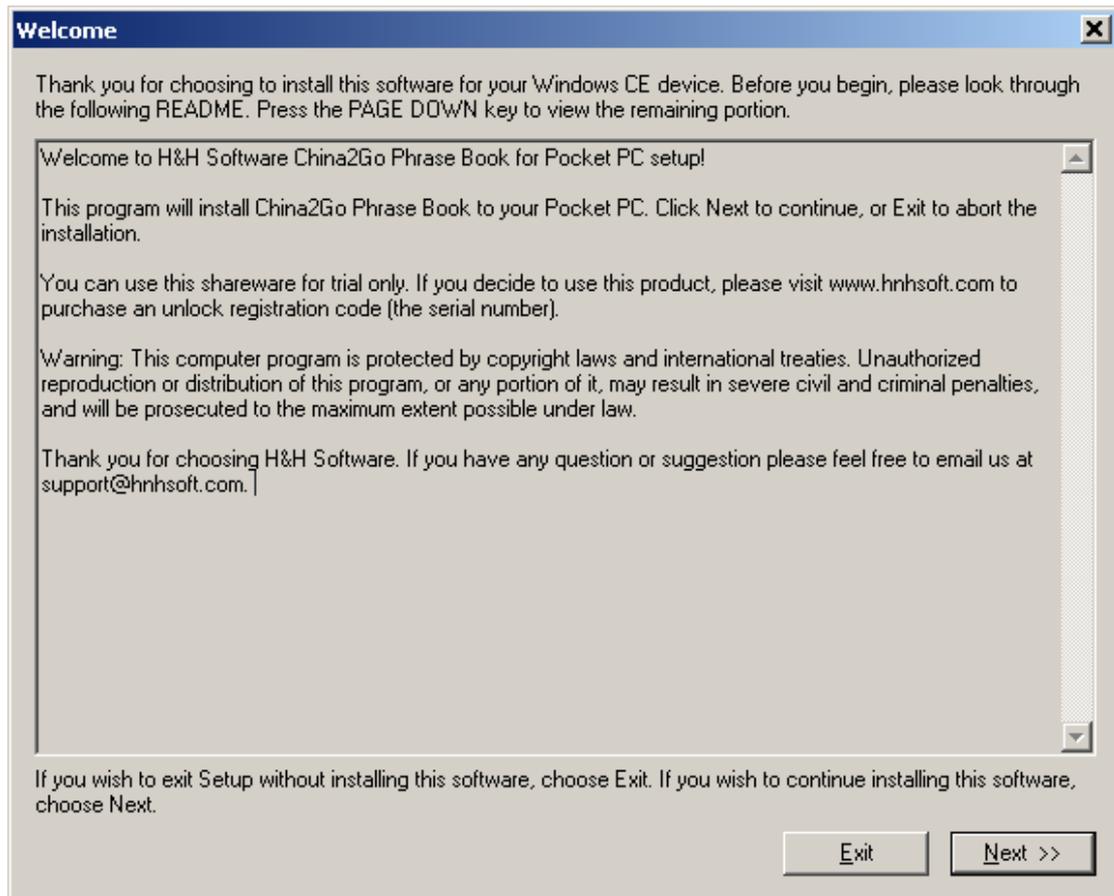

4. Check free space

H&H China2Go Talking Phrase Book v3 requires at least 10MB free memory to install. Please make sure you have enough memory either in the internal memory or the external storage card. To check the free memory, on your Pocket PC go to Start → Settings → System → Memory.

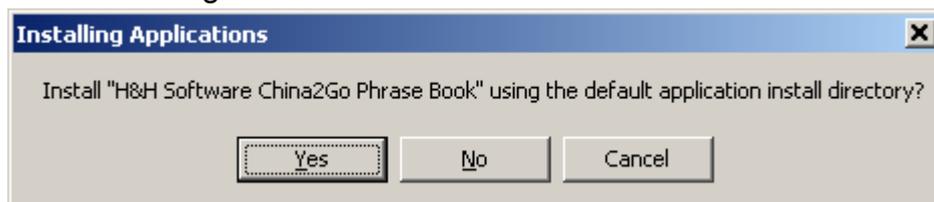

##### 5. Run Setup

On your desktop PC, double click the installation file `china2go_arm_v3.exe` to start the main setup program. Then follow on-screen instructions to proceed.

## 6. Choose installation location

You can install the product to either the internal memory or the external storage card. When the installation program asks if you want to install the program to its default location, please select No if you want to install it to the external storage card.

## 7. Done!

You will now see the H&H China2Go Talking Phrase Book icon on your Programs menu. You are all set to go.
