[www.mobile2day.com](http://www.mobile2day.com)

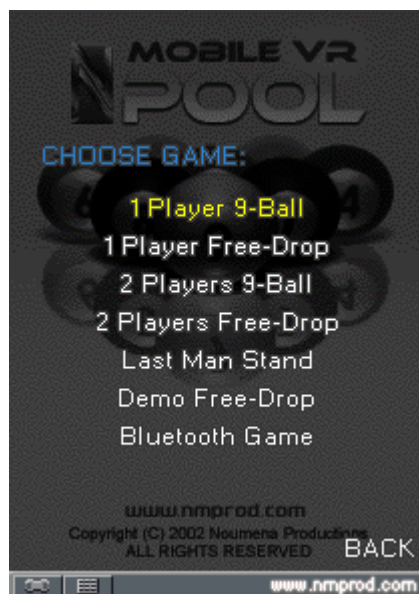

[www.softwaremarket.nokia.com](http://www.softwaremarket.nokia.com)

The price of the game may be different from site to site. Normally it is EUR 9.95.

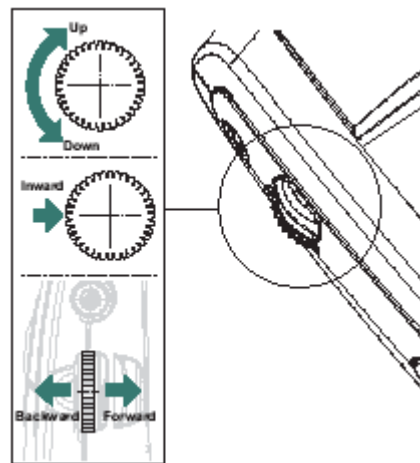

## Game play:

## Game Modes

There are 6 different game modes available. See the screen shot.

## Game Control

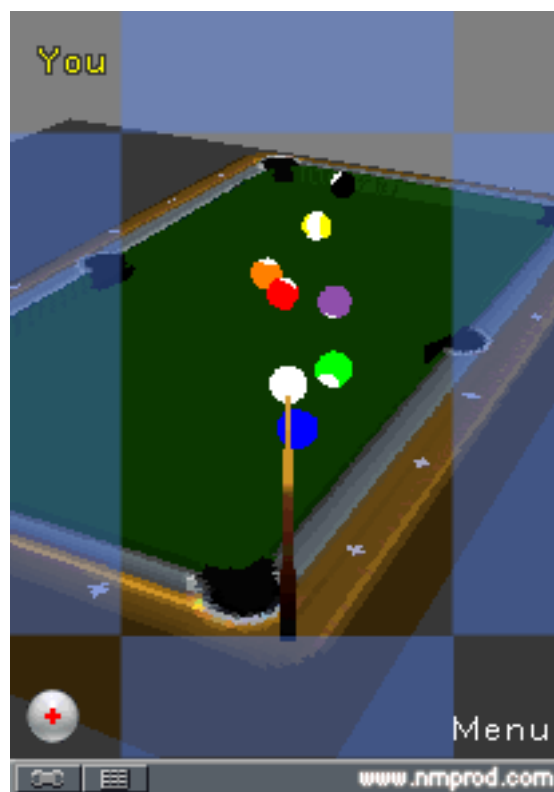

The game is easy to control. The Jog Dial and the Touch Pen can do the most jobs.

### Dealing with the menus

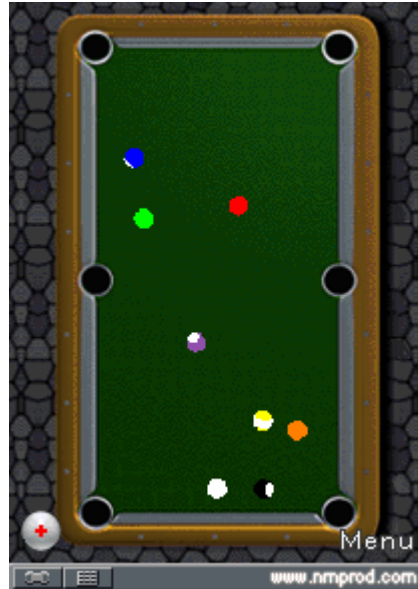

Jog Dial Direction **UP** and **DOWN**  
 Jog Dial **Inward** or **Touch** the Items  
 Jog Dial **Backward** or **Forward**

Navigating the menu  
 Selecting the menu Item  
 Switch among applications

### In Game

- Touch in the **shaded** area can adjust the view angle.
- Touch the **ball** at the down-left corner or wheel-up, wheel-down the **Jog Dial** can adjust the strike point.
- Hold the **Jog Dial** inward can adjust the strike force. It is based on the distance from the cue to the ball.

## Bluetooth Game

- Please set the Bluetooth connection to **Discoverable** before you enter MGS. If you find your Bluetooth is not opened, please **quit MGS first** and set-up your Bluetooth. Don't just switch to the control panel, because in some special cases it can cause the Bluetooth crash down. If it happens, you should restart your phone.
- If you want join a Bluetooth game, while searching other devices, please set the device to **phone**. It can save you a lot of time in searching. After selecting a corrected device, you can start the game.
- You can even play with a Nokia 7650/3650 installed the MGS Mobile VR Pool.

## Making a Phone Call

If you want to make or receiving a phone call or do something else, just switch out the game. You need not quit the game or the MGS. After that, you can resume your game just run the MGS again. You will find the game is kept just like when you switch off.

*Note: You cannot return to where you have left off if you start up another application (such as another MGS Game) after you leave MGS Mobile VR Pool.*

## Uninstall

To remove the game from your phone's memory, go to **Control Panel/Storage Manager**, select **Uninstall** and choose MGS Mobile VR Pool.
