

MGS SilverBall

Users Guide for Sony Ericsson P800

Introduction

Thank you for playing MGS Silverball, the first racing game from Noumena Productions. MGS Silverball is created using MGS SDK, also from Noumena Productions.

MGS is an entertainment platform allowing high-performance entertainment titles to be made available for mobile handsets. To obtain the latest version of MGS and find more MGS games, please check out website at:

www.nmprod.com

Again, thank you for playing MGS Silverball, we at Noumena hope you have as much fun playing the game as we have had creating it!

Installation

Minimum Requirements

1. Hardware: Sony Ericsson P800/P802 or compatible.
2. 528K or more memory space for software installation (excluded 765K for MGS)
3. 600K for game playing

MGS Silverball is a game created using the MGS Mobile entertainment engine, thus it requires the MGS console to run. If you do not have MGS installed, you can download the latest version from:

www.nmprod.com.

Note: MGS Silverball requires MGS version 1.9 or later. If you have an older version of MGS, you will need to update it before playing MGS Silverball.

To install MGS Silverball:

1. Send Silverball.sis and MGS.sis to your phone using Bluetooth or infrared.
2. You will receive a message notifying you files have been received. Open these messages and

choose install.

3. Upon successful installation of the files, you will find the MGS icon on your application list. Open MGS and choose MGS Silverball to play!

Unlock the demo

SilverBall is shareware. The demo level set is free; the rest of the game is not. If you liked playing the game, please consider giving us support by registering the game.

What will I get if I register?

1. Unlock additional 72 levels!
2. Being able to download new levels from the Noumena Website!
3. And helping us to continue our work to create more exciting games for your favourite handset!

Purchase on-line:

1. A credit card or other wired transfer method is required.
2. The IMEI code (a 15-digit number) for your cell phone is required. To obtain your IMEI code, dial *#06# on your phone.
3. Once purchase is made the unlock code will arrive by e-mail within the next 48 hours.

You can purchase MGS Silverball from the following websites:

- www.handango.com
- www.my-symbian.com
- www.mobile2day.de

Other purchasing methods

Noumena Productions is currently looking for other ways to distribute our products. You will soon be able to download our games directly to your phone. To be notified when this option of purchase becomes available please visit our website and sign up for MGS Newsletter.

Unlock the demo

Once you have purchased the game and received the unlock code, simply enter it in the registration screen and you now have the full version of the game!

Game play:

Game play in SilverBall is fairly straightforward. All the menus should be self-explanatory. Your goal in the game is to control your paddle and hit as many 'bricks' as you can without losing the ball. Once all the bricks have been cleared, you proceed to the next level. The game is won if all bricks are cleared from a level set. Sounds simple? Pick a level and have a try!

Items in the game

There are some items in game can make you power-up or power-down.

Broaden Paddle.

Gun Paddle

Short Paddle

De-bricks

Splitting Ball

Slow Ball

Magnetize your paddle

Extra Paddle

X-ray ball

Next Level

Shortest Paddle

Sonic Ball

Sinking Bricks

Game Control

In game menu, use **wheel-up** or **wheel-down** to navigate menu and use **pen** to select the menu items.

In game, use **pen** to direct the paddle and use **wheel-up** or **wheel-down** to launch balls or fire guns.

Making phone calls

If you need to make a phone call (or answer one) in the middle of the game, simply do so; the game will be paused until you are done. If you need to do some other things in the middle of a game, such as sending a SMS message, you can leave the game and tend to your task, once you are done you will be returned to where you have left off.

Note: You cannot return to where you have left off if you start up another application (such as another MGS Game) after you leave MGS Silverball.

Uninstall

To remove the game from your phone's memory, go to **Control Panel/Storage Manager**, select **Uninstall** and choose MGS Silverball.

How to Contact us

If you have any problems with the game or you have some suggestion, you can send us an E-mail using following address:
