QuadPicture v2.0

Installaiton Guide

Nov 21st 2005

Honzone Company

Develop applications that kill and save time

1 How to install

Thanks for downloading QuadPicture.

a. Copy the .sis file to the handset.
- Transfer the .sis file from PC to the handset via Infrared or Bluetooth. Activate the Infrared or Bluetooth on the handset if it is off. (Go to menu > Connectivity > Infrared/Bluetooth).

- Or install the .sis file using Nokia PC Connectivity tool.

- Or transfer the .sis file from PC to the MMC (memory card) inside the handset via a card reader. (Refer to the handset manual of how to do it.)

b. Click the .sis file on the handset and follow the instruction to install it. (It takes not more than 5 seconds until the license agreement shown.)

Please visit www.honzone.com for more information about it.

2 Registration

QuadPicture is a shareware. You need to purchase a license to activate it after a 14 days trial period. The trial version is fully functional except there is a "Trial" mark on each picture. Please email us (sales@honzone.com) with the following information :

- Which web site you purchased QuadPicture from.
- Your name.
- Invoice, order or reference No.
- IMEI Number (pressing #06# on your handset)

Then we will send you a serial key in 2 business days. Use it to unlock the trial version.

It will not show you the "Trial" mark and how many trial days left after registration.
